Virtual OAA Conference 2022

Inspiring Climate Action 

As we continue to cope with a global pandemic, an even greater challenge—the climate emergency—needs our attention and creative solutions. Our planet faces unimaginable disaster. Buildings new and old must be resilient not only in the face of quickly changing climate patterns and disasters, but also in terms of carbon and energy efficiency. The time for talking and planning has passed. We now need action! The architecture profession must insert creative thinking into the climate discussion. This is our most valuable contribution to the collaborative decisions that need to be made.

From May 11 to 13, the 2022 OAA Conference will showcase creative ideas and sustainable projects that explore architectural thinking applied to the climate crisis. We aim to inspire you!
